

Paper Title in IEEE Transactions Style

First A. Author, *Member, IEEE*, Second B. Author, and Third C. Author, *Fellow, IEEE*

Abstract—This template is adjusted to resemble the formatting of an IEEE Transactions article rather than an IEEE Access article. The title is typeset in black, without the IEEE Access blue title style. The abstract is placed after `\maketitle`, so it appears in the two-column text area, followed by the index terms. Replace this paragraph with a concise summary of the manuscript, normally written as a single paragraph.

Index Terms—Index term one, index term two, index term three, index term four.

REFERENCES

- [1] A. Author and B. Author, "A sample article title," *IEEE Transactions on Cybernetics*, vol. 54, no. 1, pp. 1–10, 2024.
- [2] C. Author, "Another sample article title," *IEEE Transactions on Automatic Control*, vol. 68, no. 2, pp. 100–112, 2023.

I. INTRODUCTION

THIS template uses the standard IEEE Transactions two-column journal layout. It removes the IEEE Access masthead and the blue article-title block. The section headings, title, author block, abstract, and index terms follow the visual logic of the supplied reference paper.

Use `\cite{}` for references, for example [1], [2]. Equations may be written as follows:

$$E = mc^2. \quad (1)$$

II. METHOD

Text, equations, tables, and figures can be added as in a standard IEEE Transactions manuscript. To avoid floats appearing before the abstract on very short sample documents, the figure example is left as a commented block below.

III. RESULTS AND DISCUSSION

Insert your results and discussion here. For wide tables or figures, use `table*` or `figure*` carefully, since IEEE two-column layouts restrict where full-width floats can appear.

IV. CONCLUSION

Insert the conclusion here.

APPENDIX A ADDITIONAL DERIVATIONS

Appendix material can be placed here.

ACKNOWLEDGMENT

The authors would like to thank the anonymous reviewers for their constructive comments.
